

POWERFUL PILE REMEDY DISCOVERED

Has Never Failed to End Most Obsolete Case
of Piles in Few Days.

For years it has been proved that so-called external remedies applied to or inserted in the rectum cannot cure piles, and at the best can only give temporary relief. Surgical operations also do not remove this cause, but simply the formation.

This wonderful prescription, known as Miro Pile Remedy, is so efficient in the treatment of piles, that even chronic cases of from 20 to 30 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few doses of a carefully balanced prescription and the most persistent case of piles is absorbed, never to return.

Just read what Henry J. Stone of the Lorain, Ohio, Fire Department says: "I had bleeding and protruding piles for three years and tried all kinds of remedies without result, but was thoroughly cured after taking one bottle of Miro."

Frank J. Phillips of Bird Island, Minnesota, says: "I used half a bottle of Miro. It worked like a charm. I no longer suffer with bleeding and protruding piles. I never regretted the money for such blessing as I am now enjoying. I would have used the whole bottle, but it was not necessary."

All pharmacists dispense Miro or get it for you on short notice. Surely it's worth the little trouble to obtain it to be rid of piles forever.

IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription.

If your druggist cannot supply you we will gladly send either of the above mail charges paid in receipt of price. Internal Treatment \$1.50, war tax 6c. Ointment 50c war tax 2c extra. Guaranteed Remedy Co., Elyria, Ohio—Adv.

HARDWICK

The Village Is Facing Water and Power Shortage.

By shutting down from 12 until 1 o'clock at noon and from 4 until 7 in the afternoon and from about midnight until 7 o'clock in the morning, the village electric system seems to be able to cope with the power situation but unless relief comes soon in the shape of a heavy and continued rainfall the power situation will reach the acute stage. The domestic water supply, thanks to the consumers using judgment in unnecessary waste, is keeping up in good shape.

The funeral of Mrs. Timothy E. Angell, formerly of this place, who died in Schenectady, N. Y., July 30, was held Sunday afternoon, with interment in the Main street cemetery. Rose Jane Angell, wife of T. E. Angell, was born in Woodbury in 1869. In 1892 she was united in marriage to T. E. Angell and to this union two children were born, George E. and Esther. She was a daughter of Mr. and Mrs. G. C. Trow and she is survived by her husband, two children, an aged mother, two sisters, Mrs. Mae Allen of Rutland and Mrs. Marie DeFord of this place. Mr. and Mrs. Angell have until recently been residents of Hardwick for many years. Sympathy is extended to the bereaved family and relatives.

Miss Hazel Lawrence of Springfield is visiting relatives in town.

A team driven by Harry Cross and containing Mr. and Mrs. Cross and three children, was struck by a car driven by Clarence Brewster of Craftsbury late Saturday night in front of the Robie mill on Wolcott street, and as a result the wagon is minus one rear wheel and the occupants were all thrown out onto the concrete walk but were not injured beyond being somewhat bruised and shaken up. No blame is attached to either vehicle or the drivers, as Mr. Brewster was coming straight down the hill from front of the Pierce block and Mr. Cross saw three autos coming from the other direction but did not see Mr. Brewster, so he attempted to drive across the street from the Robie store, where he had been doing some trading, but did not take into consideration the car coming down because he did not see it, with the above result. Mr. Brewster was driving very slowly, so that the cars coming up would pass by the Robie buildings before he (Brewster) swung onto Wolcott street proper. This is a very congested place for traffic, especially on Saturday nights, and it is a wonder that more accidents have not occurred, and means of regulating the traffic in that section should be seen to soon.

E. M. Davis' family were in Underhill last Saturday to attend a David family reunion.

A DISCOVERY THAT BENEFITS MANKIND

Two discoveries have added greatly to human welfare.

In 1835 Newton originated the vacuum process for condensing milk with cane sugar to a semi-liquid form.

In 1883 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar.

This product HORLICK named Malted Milk. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.
